 <https://www.linkedin.com/in/amaanslyf>

## SKILLS

- ❖ Java, JavaScript, HTML, CSS, Tailwind CSS
- ❖ Node.js, Express.js, React.js, Redux, RESTful APIs
- ❖ SQL, MongoDB, Firebase, Git & GitHub, Authentication and Authorization, Docker, CICD

## EDUCATION

- ❖ B-Tech in CSE AI | Vishwakarma Institute of Technology, Pune. **CGPA: 9.06** | (2024-27)
- ❖ Diploma in Computer Engineering | Sou.Venutai Chavan Polytechnic, Pune. **89.94%** | (2022-24)

## EXPERIENCE

- ❖ **Software Developer Intern | Cloudinger Softech LLP** (Dec 2025 to present)  
Working as a **Software Developer** Intern at **Cloudinger Softech LLP** on a real-world project using **React.js**, **Node.js**, and related technologies. Contributed to **frontend**, **backend**, core **project design**, **architecture**, and key **technical** decisions. Solved critical onboarding and workflow challenges for roles like machine owners and machine renters, improving **usability**, **scalability**, and overall platform **efficiency**.

## PROJECTS

- ❖ **CodeVault : Beginner-Friendly Version Control System** <https://code-vault-plum.vercel.app/>  
Developed a full-stack, Git-like **version control system** with a web dashboard and **CLI** for simplified code management. Features include repository creation, file tracking, commit history, issue management, and secure cloud storage (**AWS S3**, **MongoDB Atlas**), built using **React.js**, **Node.js/Express.js**, and **MongoDB**.
- ❖ **JanSahyog : Smart Civic Issue Management Platform** <https://github.com/amaanslyf/JanSahyog>  
Built a full-stack civic governance system with a **React** admin portal, **React Native (Expo SDK 51)** mobile app, **Firebase (Auth, Firestore, Storage, Cloud Functions)**, and **Material UI** to enable citizens to report **geo-tagged issues** with photos and track resolution in **real time**. It provides officials with **analytics dashboards**, **interactive maps**, **automated issue routing**, and **push notifications** to streamline municipal workflows and improve transparency in governance. .
- ❖ **SyncPad : Real-Time Collaborative Text Editor** <https://syncpad-collaborative-editor.vercel.app/>  
Developed a high-performance **collaborative text editor** using **React**, **Node.js**, and **Yjs CRDTs**, achieving **<50ms sync latency and conflict-free editing**. Engineered a custom **WebSocket** server with **token-based authentication** and a debounced **MongoDB** persistence strategy to optimize database performance and ensure zero-loss **data integrity**.
- ❖ **AdvocateIntel : Personal AI Legal Assistant** <https://advocateintel.streamlit.app/>  
Developed AI-powered legal assistant using **CrewAI framework** with **multi-agent** system for case intake, IPC section identification, and legal document generation. Integrated **Groq LLM** for **conversational AI** and **Tavily API** for real-time legal research. Built **Streamlit** frontend with **multilingual support** (Marathi, Hindi, English)

## PUBLISHED RESEARCH PAPERS / PATENTS

- ❖ SmartCom 2026: Paper ID – 308 Title: Legal Ease: AI -Powered Legal Assistant Using Multi-Agent Architecture.
- ❖ International Journal of Advanced Research in Science, Communication and Technology: *ScrapDealer Web App*.
- ❖ International Journal of Innovative Research in Science, Engineering and Technology: *AI-Eye on Campus: Detecting Smoking through CCTV-Enabled Machine Learning*.
- ❖ Patent Published for REAL-TIME CROWD INSIGHTS & PREDICTI.ON OF CROWD (Application No.:202521029894)
- ❖ Patent Published for Drone Detection and Alerting System (Application No.:202521098333)

## ACHIEVEMENTS

- Selected among top 100 Students for **Citi Bridge Training Program 2026** <https://citi.truscholar.io/profile?credId=69ca125b34fff71acfd49cfc>
- Completed **IBM Full stack Software developer** course on Coursera [Coursera | Online Courses & Credentials From Top Educators. Join for Free | Coursera](#)
- Actively participated in various technical competitions, including the **FUSION 2025 (Top 25 Finalists)** intercollegiate **TECH TITANS 2024** project competition, the national-level **TECHNOTHON 2024** startup competition, and the **PRABAL national-level hackathon** recognized by **Google Developer Groups (GDG)**.
